

Ordinance No. 8
of the Rector of Poznan University of Technology
of 3 April 2026
(RO/IV/8/2026)

on the detailed organization of recruitment for the academic year 2026/2027
for Polish citizens

Acting pursuant to § 10 section 2 of Resolution No. 53/2024-2028 of the Academic Senate of Poznan University of Technology of 30 April 2025 *on the conditions and mode of admission to studies in the academic year 2026/2027*, as amended, **it is ordered** as follows:

§ 1

The recruitment schedule for the academic year 2026/2027 is contained in Attachment No. 1 to the Ordinance.

§ 2

Admission limits to studies in the academic year 2026/2027 are specified in Attachment No. 2 to the Ordinance.

§ 3

1. The amount of the recruitment fee is:

- | | |
|--|--------|
| 1) for the first-cycle studies: | |
| a) field of study: Architecture and Interior Design
(it is necessary to conduct an entrance exam and check artistic aptitude) | PLN150 |
| b) other fields of study | PLN 85 |
| 2) for the second-cycle studies, in the event that a candidate: | |
| a) does not take the voluntary entrance exam | PLN 85 |
| b) takes the voluntary entrance exam: | |
| field of study: Architecture and Interior Design
(checking artistic aptitude) | PLN150 |
| - other fields of study | PLN100 |

2. A candidate pays one fee for the procedure related to admission to studies, for a given form of studies (full-time, part-time) and level (first- and second- cycle), regardless of the number of indicated fields of study. In the case of indicating fields of study for which different fees apply, a higher fee must be paid. The fee paid is non-refundable.

§ 4

List of fields of study which will be taught in English:

1. First-cycle studies:
 - Architecture
 - Automatic Control and Robotics
 - Sustainable Building Engineering
 - Biomedical Engineering
 - Mechanical Engineering *
 - Engineering Management
 - Microelectronics and Digital Communication *
 - Artificial Intelligence
 - Chemical Technology

- Quantum Technologies *
2. Second-cycle studies:
- Architecture
 - Automatic Control and Robotics
 - Civil Engineering
 - Electronics and Telecommunications
 - Electrical Engineering
 - Computing
 - Biomedical Engineering
 - Engineering Management
 - Logistics
 - Mechanical and Automotive Engineering
 - Artificial Intelligence
 - Chemical Technology
 - Information Technology for Smart and Sustainable Mobility
 - Transport
 - Green Energy

* recruitment of candidates will take place in the event of finalizing the procedure for launching the field of study

§ 5

1. List of fields of study for which the University issues referrals to an occupational medicine specialist:
 - Architecture
 - Interior Design
 - Civil Engineering
 - Sustainable Building Engineering
 - Chemical and Process Engineering
 - Pharmaceutical Engineering
 - Environmental Engineering
 - Chemical Technology
 - Circular System Technologies
2. Candidates admitted to studies in the fields referred to in section 1 will receive, along with written information about the admission, a referral to an occupational medicine specialist. On the basis of this referral, they are obliged to undergo medical examinations and provide a medical certificate from an occupational medicine specialist before the beginning of classes. Failure to do so will make it impossible to attend classes.
3. The list of occupational medicine units that provide medical examinations free of charge on the basis of a referral issued by Poznan University of Technology can be found on the University's website.

§ 6

The Ordinance enters into force on the day of signing.
