

Ordinance No. 7
of the Rector of Poznan University of Technology
of 15 April 2024
(RO/IV/7/2024)

on the detailed organization of recruitment for Polish citizens
for the academic year 2024/2025

Acting pursuant to § 10 section 2 of Resolution No. 123/2020-2024 of the Academic Senate of Poznan University of Technology of 26 April 2023 *on the conditions and mode of admission to studies in the academic year 2024/2025*, **it is ordered** as follows:

§ 1

The recruitment schedule for the academic year 2024/2025 is contained in Attachment No. 1 to the Ordinance.

§ 2

Admission limits for studies in the academic year 2024/2025 are specified in Attachment No. 2 to the Ordinance.

§ 3

1. The amount of the recruitment fee is:
 - 1) for first-cycle studies:
 - a) field of study: Architecture and Interior Design – PLN 150
(it is necessary to conduct an entrance examination and check artistic aptitude)
 - b) other fields of study – PLN 85
 - 2) for second-cycle studies:
 - a) field of study: Architecture and Interior Design – PLN 150
(it is necessary to conduct an entrance examination and check artistic aptitude)
 - b) other fields of study – PLN 100
(it is necessary to conduct an entrance examination)
2. A candidate pays one fee for the procedure related to admission to studies, for a given mode of study (full-time, part-time) and cycle (first- and second- cycle) regardless of the number of indicated fields of study. In the case of indicating fields of study for which different fees apply, a higher fee must be paid. The fee paid is non-refundable.
3. In the case of recruitment for second-cycle studies, a candidate may indicate a maximum of 3 fields of study.

§ 4

List of fields of study which will be run in English:

1. First-cycle studies:
 - Architecture
 - Automatic Control and Robotics
 - Sustainable Building Engineering
 - Electronics and Telecommunications
 - Biomedical Engineering
 - Engineering Management
 - Artificial Intelligence
 - Chemical Technology

2. Second-cycle studies:

- Architecture
- Automatic Control and Robotics
- Civil Engineering
- Electronics and Telecommunications
- Electrical Engineering
- Computing
- Biomedical Engineering
- Product Lifecycle Engineering
- Engineering Management
- Logistics
- Mechanical and Automotive Engineering
- Mechatronics
- Artificial Intelligence
- Chemical Technology
- Transport
- Green Energy

§ 5

1. List of fields of study for which the University issues referrals to an occupational medicine specialist:
 - Architecture
 - Interior Design
 - Civil Engineering
 - Sustainable Building Engineering
 - Chemical and Process Engineering
 - Pharmaceutical Engineering
 - Environmental Engineering
 - Chemical Technology
 - Circular System Technologies
2. Candidates admitted to studies in the fields referred to in section 1 will receive, along with written information about the admission, a referral to an occupational medicine specialist. On the basis of this referral, they are obliged to undergo medical examinations and provide a medical certificate from an occupational medicine specialist before the beginning of classes. Failure to do so will make it impossible to attend classes.
3. The list of occupational medicine units that provide medical examinations free of charge on the basis of a referral issued by Poznan University of Technology can be found on the University's website.

§ 6

The Ordinance enters into force on the day of signing.
