

Ordinance No. 15
of the Rector of Poznan University of Technology
of 29 May 2024
(RO/V/15/2024)

on launching postgraduate studies
"Energy – the foundation of the resilience of critical infrastructure"

Acting pursuant to Article 23 section 2 of the Act of 20 July 2018 - Law on Higher Education and Science (Journal of Laws of 2023, item 742, as amended), in connection with Resolution No. 198/2020-2024 of the Academic Senate of Poznan University of Technology of 29 May 2024, **it is ordered** as follows:

§ 1

1. Poznan University of Technology launches postgraduate studies, hereinafter referred to as the "studies", on the basis of the curriculum of studies established by Resolution No. 198/2020-2024 of the Academic Senate of Poznan University of Technology of 29 May 2024:
 - 1) name: **Energy – the foundation of the resilience of critical infrastructure**;
 - 2) ISCED: **0713 Electricity and energy**;
 - 3) symbol: **SP-233**;
 - 4) language of instruction: **Polish**;
 - 5) number of semesters: **2**;
 - 6) form of studies: **part-time**.
2. The studies are conducted within the framework of the Faculty of Environmental Engineering and Energy.

§ 2

1. The Head of Studies is appointed by the Rector.
2. The Dean of the Faculty of Environmental Engineering and Energy, in cooperation with the Head of Studies, commissions Poznan University of Technology academic teachers and specialists from outside the university to conduct didactic classes in the said programme.
3. The Dean of the Faculty of Environmental Engineering and Energy is responsible for the substantive teaching content, organization of classes, course and coverage of the curricula of studies.

§ 3

1. The studies can be pursued by persons who:
 - 1) have a full qualification at least at level 6 obtained in the higher education and science system,
 - 2) possess knowledge of issues related to environmental engineering, energy (electrical power engineering, thermal energy) – a required criterion, as well as issues related to security, crisis response, critical infrastructure and logistics – an acceptable criterion. Experience in connection with employment in public administration entities managing security and critical infrastructure and employment by critical infrastructure operators will also be preferred;
 - 3) due to the integrated nature of the information provided, preference will also be given to persons who are granted with a security clearance in the scope of admission to classified information at the RESTRICTED level.
2. The condition for completing the studies is to obtain 32 ECTS credits and defend the final paper.
3. The studies make it possible to obtain a partial qualification in accordance with the Polish Qualifications Framework at level 6.
4. Graduates receive a certificate of completion of postgraduate studies.

§4

The Ordinance enters into force on the day of signing.
